Not a factory, but a sewing atelier

Nisi Kids is a small team sewing party and ceremony dresses for girls aged 3–12 at the Çiğdem Moda Evi atelier in Pendik. No dress comes from stock; each one is sewn to order, to the child's measurements.

The advantage of being an atelier with only a small number of people is that every job is followed through by the same hands, and designs that call for fine detail are finished with real care. The disadvantage is that the number of jobs we can take on at the same time is limited.

That is why we do not exaggerate when we talk about schedules. Rather than accept a job we cannot finish in time, we prefer to say no; and for the work we do accept, we do our best to keep to the date we have given.

COVER STORY · WHOLESALE AND BUSINESS PARTNERSHIPS

We start with a single dress

How we work with boutiques, children's clothing shops and event companies: the sample piece, the size range, the schedule and delivery.

We do not send you a box ready for the shelf; we sew the designs we settle on together, on the schedule we agree. What the business enquiries we receive have in common is that they want to offer their own customers a dress sewn to measure rather than a ready-made size. That is why, in the first conversation, we try to understand what you sell and which seasons are busiest for you.

The sample piece

We suggest we sew a single piece of the design you choose from the catalogue so you can hold it in your hands. Everything you see on that first piece is open to discussion: the sleeve length, the fullness of the skirt, the shape of the neckline, the choice of lining and the amount of trim. The piece we agree on becomes the reference for everything sewn afterwards.

The size range

Every design comes in five sizes: 3–4, 5–6, 7–8, 9–10 and 11–12 years. You can have a design made in a single size or across the whole range. For window displays and sample pieces a standard size is enough; for orders made for a named child, we settle the measurements together over WhatsApp.

Requests outside the catalogue

Changing the colour, the fabric or the amount of trim on a design is usually possible. For production from your own drawing or pattern, we work on a contract manufacturing basis; and for graduations, choirs and performance groups, we also sew bulk orders in one design and one fabric, each dress to its own measurements.

“Rather than deciding from a photograph, judge the stitching, the lining and the way the fabric falls with the piece in your hands.”

STEP BY STEP

1	2	3	4	5
Design codes	Sample piece	Adjustments	Measurements	Delivery
Send us the codes, quantities and size breakdown on WhatsApp.	A single piece is sewn for you to assess in hand.	Sleeves, skirt, neckline, lining and trim are discussed.	For orders made for a named child, measurements are settled together.	Shipping across Türkiye, or collection in person from Pendik.

Quantities and terms

We do not state a fixed minimum; quantities and working terms are agreed together according to the design, the workmanship and the schedule.

Schedule

For a single dress, preparation takes 7–14 days. For bulk work, the schedule is settled together according to the number of children and the design.

Delivery

Shipping across Türkiye; within İstanbul, collection in person from the atelier in Pendik. For larger jobs, delivery in batches can be discussed.

About the images: The backgrounds of the product photographs have been edited with AI-assisted tools. The lifestyle images labelled “Illustrative image” on the cover and introductory pages were generated with AI. Fabric shades and embellishments may differ slightly in the sewn dress; this is why, for business orders, we recommend having a sample piece sewn first.
